In the article titled "A Case Report of Nasopharyngeal Myiasis in a 49-year-old Shepherd Man Referred to the Emergency Department of Tabriz," published in *Int J Med Parasitol Epidemiol Sci* (2021; 2(2): 43–45; doi: 10.34172/ijmpes.2021.14), the authors have requested the removal of the name, affiliation, and contributions of the last author, Muhammad Bilal, from the published article. This request is due to the article's subject not being related to the author's field of expertise and potentially affecting his academic position. The authors confirm that this correction does not affect the scientific integrity or conclusions of the study.

Publisher's Note: The PDF and HTML versions of the article have now been updated to reflect these changes.
